Changes & Removals

To facilitate consenting the submitted request, we've made some changes.

Based on WCC recommendations:

the paths of tracks passing through SNA (RT.04 & RT.03) were modified to work *around* SNAs rather than go *through* them.

Another vehicular track (Knowhere South - RT.01) was removed, replaced with a permitted pedestrian path (<1.5m).

This permits the removal of areas in which the vehicle paths passed through (CR.21, CR.32, CR.31, etc.).

One area mentioned in the submittal (Bear's Spur CR.61) was removed as it probably won't be gotten to.

Following WCC's advise, CR.02, CR.01, CR.03 removed from request so that no clearing required in SNAs, simplifying request.

Note:
Due to nature of landscape, all dimensions listed below are approximate in length and area.

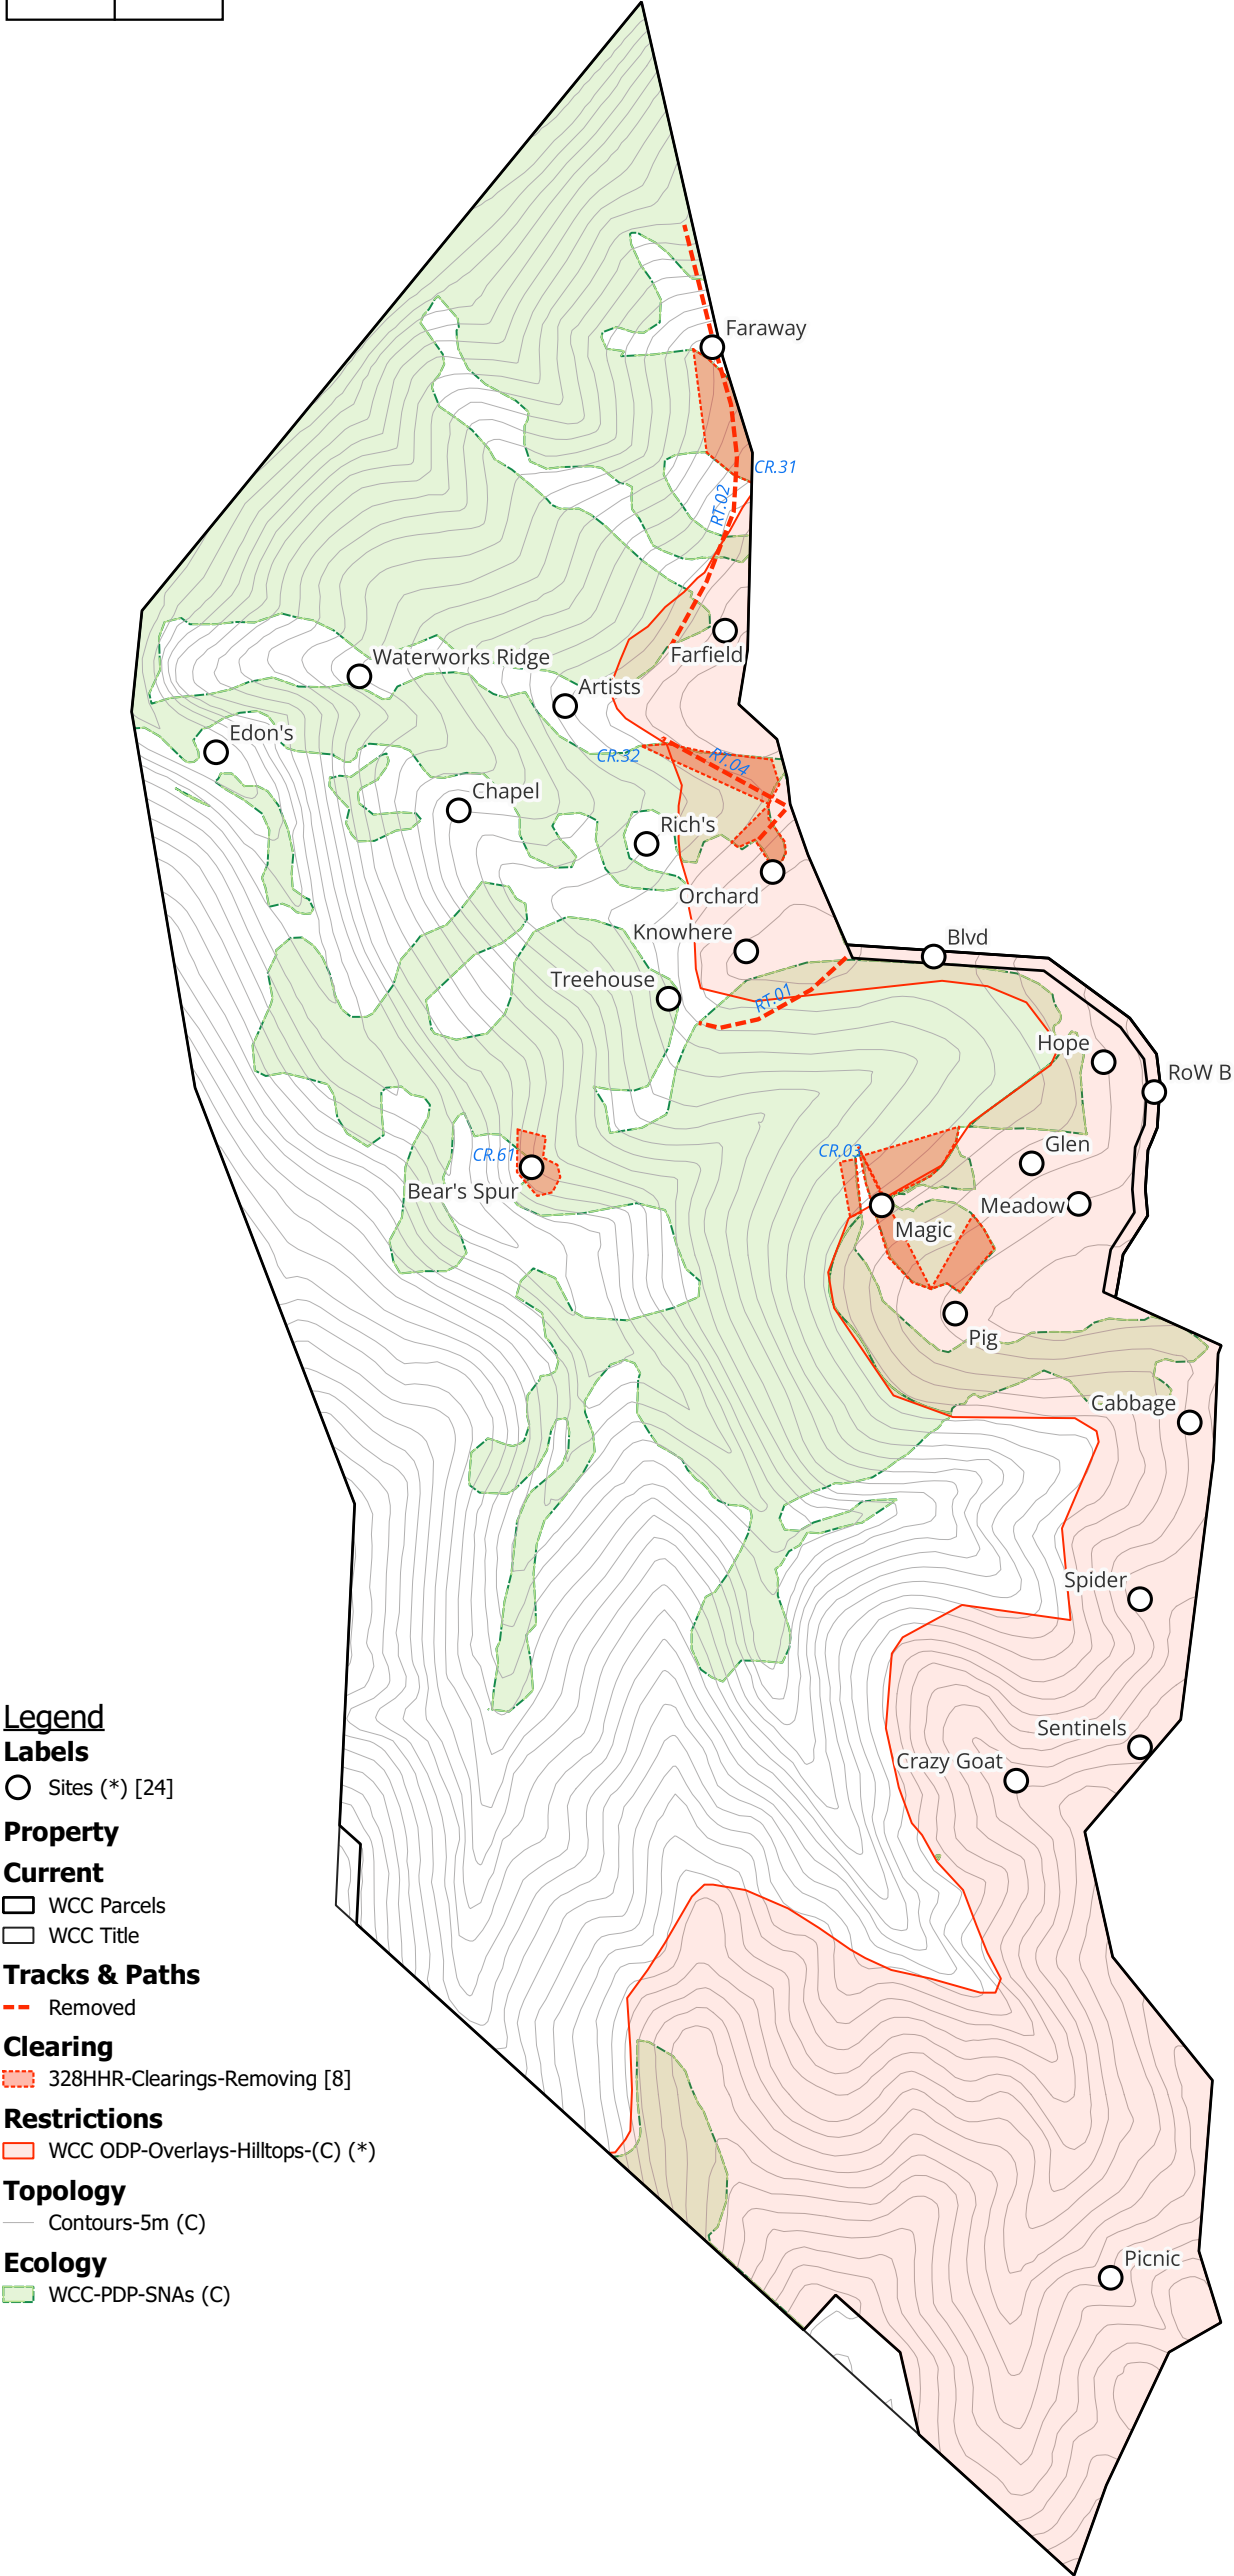

Removed request for tracks that were going through SNA:

id	Title	Dimension
RT.01	Knowhere South Track	+/- 78m.
RT.02	Farfield	+/- 206m.
RT.04	Farfield shortcut	+/- 65m.
RT.03	Rich-Orchard Bridge	+/- 19m.

Removed SNA Areas:

ID	Title	Dimension
CR.01	Pig Left through SnA	+/-0.2 ha.
CR.02	Pig Right	+/-0.5 ha.
CR.03	Pig Bottom	+/-0.7 ha.
CR.11	Below Meadow	+/-0.4 ha.
CR.21	Rich Bridge Area	+/-0.3 ha.
CR.31	Faraway Bridge Area	+/-0.9 ha.
CR.32	Faraway South	+/-0.7 ha.
CR.61	Bear's Spur	+/-0.4 ha.

Note:
Variation from submitted request are due to following WCC's recommendations to remove clearings that were in SNAs, and rerouting tracks to go around SNAs rather than through them.
